

5 STEPS TO BUILDING A STELLAR VOLUNTEER TEAM

ABOUT THE WORKSHOP

Are you a leader of volunteers who is frustrated because your volunteers cancel shifts with little (or no!) notice, or work for a month or two, then disappear?

Are you having trouble finding enough qualified volunteers to run your programs?

As an executive director, are you spending too much of your time trying to recruit and manage volunteers? This interactive class is for you!

What you'll learn:

- The four ways to show volunteers appreciation;
- How to find and sign up enough of the right volunteers;
- How to onboard and train in such a way as to reduce or eliminate volunteer mistakes;
- Tips and tricks to make the day-to-day management of volunteers run smoothly; and
- How to keep your volunteer program improving year after year.

With the right team of volunteers, you can increase your impact without increasing resources.
